# FOREWORD

**Carolina España**

Regional Minister of Economy,  
Finance, European Funds and  
Social Dialogue

Spokesperson for the Andalusian  
Government

President of Andalucía TRADE

It is my pleasure to welcome you to Aerospace & Defense Meetings – ADM Sevilla 2026, the eighth edition of an event that has firmly established itself as Spain's leading aerospace industry gathering and the most important event of its kind in Southern Europe.

More than one thousand professionals representing hundreds of companies from around the world have once again chosen Andalusia and Seville as the place to meet, connect and develop business opportunities within one of the world's most demanding and competitive industries: aerospace.

Through Andalucía TRADE, the Regional Ministry of Economy, Finance, European Funds and Social Dialogue of the Andalusian Government, in collaboration with BCI Aerospace, proudly supports this strategic platform aimed at showcasing the business and investment opportunities offered by Andalusia – one of Europe's leading aerospace

hubs and the only region in Spain hosting two major aircraft manufacturers: Airbus, Europe's leading aerospace company, and Pilatus Aircraft, a global leader in business aviation. Both companies support ADM Sevilla alongside Aciturri, a Tier 1 aerostructures supplier, and other industrial partners including Aerotecnicos, Akkodis, Capgemini, Grupo Sevilla Control, Sofitec and Turco Española.

The event also benefits from the strong involvement of the key representative organisations of the aerospace sector in Andalusia and Spain: the Andalucía Aerospace cluster, TEDAE, the Spanish Space Agency and CATEC.

I would like to sincerely thank all of them for their commitment and contribution to the organisation of ADM Sevilla 2026, as well as for the role they play – together with our universities, infrastructures, companies and professionals – in building a dynamic ecosystem of talent and innovation around an industry that generates wealth, high-quality employment, foreign investment and showcases the industrial capabilities of our region. Every two years, ADM Sevilla becomes a key milestone for the continued growth of this ecosystem.

I invite you to make the most of these days to forge new partnerships and discover how Andalusia is helping shape the future of aerospace.

Welcome to ADM Sevilla 2026.

# ABOUT ADM SEVILLA 2026

ADM Sevilla is Spain's leading B2B convention for the aerospace and defense industries, connecting OEMs, Prime Contractors, Tier 1 & Tier 2 suppliers, manufacturers, and service providers through a highly efficient pre-scheduled meeting format.

The event combines one-to-one B2B meetings, a dedicated exhibition area, high-level conferences, and focused networking opportunities, creating a targeted platform to identify partners, accelerate deals, and strengthen industrial collaboration.

ADM Sevilla 2026 will welcome more than 320 companies from 30 countries and host over 8,000 pre-arranged business meetings, reinforcing its position as the largest aerospace and defense industry gathering in Southern Europe. Held at FIBES Sevilla from 19–21 May 2026, the event will bring together more than 1,000 professionals, including 54 major international OEMs such as Airbus, Boeing, Embraer, and Lockheed Martin.

The exhibition will span more than 7,000 sqm and feature a high-level conference programme focused on sustainable aviation, innovation, space, defense, cyber defense, digitalisation, and talent development. ADM Sevilla 2026 will also introduce dedicated areas for startups and universities through the AeroLabs Pavilion and Student Day initiative, further strengthening collaboration between industry, entrepreneurship, and academia.

## WHY SEVILLA?

Sevilla and Andalusia continue to strengthen their position as one of Europe's fastest-growing aerospace hubs. As Spain's second-largest aerospace exporting region, Andalusia generates nearly €3 billion in annual industry revenue and supports more than 15,000 direct jobs, making Sevilla an ideal location for innovation, strategic meetings, and business growth within the global aerospace and defense sector.

# Process Chemistry Built for Aerospace Performance

Meet Us at ADM Sevilla 2026  
**STAND M4**

Since 1962, Turco Española S.A. has developed and manufactured approved aerospace process chemicals for surface-treatment operations – serving OEM, MRO and Defense, with Aeromasking® focused on chemical milling masking.

We help aerospace teams turn approved chemistry into controlled, repeatable and documented processes across real-world production, maintenance and special-process environments, combining tailored formulation support, flexible supply and on-site technical support.

TECHNICAL WORKSHOP  
AT ADM SEVILLA 2026

## Why Masking Fails and How to Make It Work

Presented by Turco Española S.A.

Wednesday, 20 May · 2:35 to 3:05 pm  
Sala Marismas · FIBES Palacio de  
Congresos y Exposiciones de Sevilla

# INITIATIVES

## Startup Pavilion

Powered by **AERO** LABS

📍 Startup Zone– Pavilion 2

📅 May 19–21

The AeroLabs Pavilion at ADM Sevilla will bring together innovative startups from the aerospace and defense sectors, offering a unique opportunity to showcase new technologies, connect with industry leaders, and gain visibility among qualified professionals.

## Student Day

📍 Student Forum– Pavilion 2

📅 May 21

ADM Sevilla will host the NextGen Aerospace Talent Day, a dedicated Student Day designed to connect students, schools, universities, and young professionals with leading companies and career opportunities across the aerospace and defense industries.

## ADMISSION

All pre-registered participants are required to collect their badge at check-in and wear it at all times on the event premises.

All visitors must purchase their tickets in advance through the online platform, [here](#).

## BADGES

On the ADM Sevilla premises, it is mandatory to wear your badge at all times for safety and security reasons.

The Capgemini logo is positioned in the top left corner of the image. It features the word "Capgemini" in a white, elegant script font, followed by a white icon of a stylized water droplet with a circular swirl inside. The background of the entire advertisement is a photograph of an airplane's wing and engine on a tarmac under a blue sky with scattered clouds. The engine is a large, circular turbofan with a prominent yellow spiral in the center of its fan. The landing gear is visible below the wing.

Capgemini

# Real solutions, for the real world.

Capgemini brings together the capabilities to reimagine the way A&D leaders design, engineer, manufacture, and service complex products. We harness today's technologies to launch into a successful tomorrow.

We look forward to welcoming you at our booth.

Make it real.

# TRANSPORT

## By taxi

FIBES is easily accessible via Seville's ring roads (SE-30 and A-4 motorway).

- On-site parking available
- Easy access from the airport and main highways.

## By car

Free outdoor car park is available to exhibitors.

# Tu partner en **ingeniería**

Somos un partner tecnológico especializado en **ingeniería** para los sectores **aeronáutico**, **espacio** y **defensa**, y acompañamos a nuestros clientes a lo largo de todo el ciclo de vida de sus sistemas, desde el diseño y la validación hasta la producción y la optimización.

## Nuestras **soluciones ASD**

Ofrecemos soluciones de **ingeniería end-to-end** para los sectores aeronáutico, espacio y defensa, cubriendo todo el ciclo de vida del producto con un enfoque multidisciplinar orientado a la eficiencia e innovación.

Garantizamos calidad y cumplimiento normativo mediante certificación y gestión de la configuración, asegurando la trazabilidad. Además, impulsamos la **digitalización**, **automatización** e **inteligencia artificial** para optimizar procesos y fomentar una innovación escalable.

## Excelencia en **ingeniería** a lo largo de la cadena de valor

Apoyamos a las empresas en el **diseño**, **desarrollo** y **optimización** de soluciones complejas, mejorando el rendimiento, **acelerando la innovación** y garantizando la escalabilidad en un entorno tecnológico en constante evolución.

### Ingeniería de fabricación

#### Transformando el rendimiento industrial

Optimizamos procesos industriales, implementamos automatización y mejoramos la eficiencia de la producción mediante digitalización, robótica y soluciones de fabricación avanzada.

### Ingeniería mecánica y eléctrica

#### Diseño inteligente para productos conectados

Desarrollamos soluciones mecánicas y eléctricas robustas utilizando herramientas avanzadas de simulación y diseño, cumpliendo con los estándares del sector.

### Ingeniería de sistemas

#### Gestión del ciclo de vida del sistema de extremo a extremo

Diseñamos, integramos y gestionamos sistemas complejos a lo largo de todo su ciclo de vida, garantizando rendimiento, escalabilidad y una operación fluida.

### Sistemas embebidos

#### Desarrollo de soluciones embebidas avanzadas

Diseñamos, desarrollamos e integramos sistemas embebidos, garantizando fiabilidad, rendimiento en tiempo real y adaptabilidad a tecnologías en constante evolución.

## Soluciones únicas, eficientes y sostenibles

Combinamos conocimiento técnico y digitalización durante todo el ciclo de vida de los productos

En **Akkodis**, acompañamos a nuestros clientes durante todo el ciclo de vida de sus productos, brindando soluciones integrales desde la ingeniería en fase inicial hasta el soporte en operación. Con más de 30 años de experiencia en los sectores Aeroespacial y de Defensa, hemos consolidado nuestra posición como un socio estratégico para las empresas que buscan superar los desafíos más complejos de la industria.

Nuestro enfoque abarca todas las etapas del desarrollo de proyectos: diseño, desarrollo, certificación, validación y fabricación. Complementamos este recorrido con la asistencia personalizada de soporte en servicio, que incluye el mantenimiento y la generación de publicaciones técnicas y de operación. Este enfoque asegura una respuesta precisa y ágil a las necesidades específicas de cada cliente.

Lo que realmente nos diferencia es nuestra apuesta por la innovación y nuestro compromiso con la excelencia.

### Actividad

---

Ingeniería – diseño, desarrollo, certificación, validación y soporte a fabricación – y soporte a los operadores durante la vida en servicio de los productos para los tres segmentos: tierra, mar y aire.

### Presencia internacional

---

Europa, Asia, América, Australia y África

Al integrar los últimos avances en digitalización con un profundo conocimiento técnico, ofrecemos soluciones únicas, eficientes y sostenibles que potencian la competitividad de nuestros clientes.

---

Como líder global en ingeniería y tecnología, Akkodis cuenta con un equipo de **50.000** expertos en **30** países que combinan tecnologías de vanguardia y experiencia intersectorial para transformar industrias.

---

Guiados por una cultura de inclusión y diversidad, avanzamos hacia un futuro más inteligente y sostenible, adaptándonos a las demandas de un mundo en constante evolución.

**Akkodis:** Soluciones inteligentes para afrontar los retos globales de hoy y construir el mañana.

### Sistemas y Productos

---

- Ingeniería de Sistemas.
- Software crítico y digitalización.
- Soporte en servicio / ILS.
- Diseño mecánico y eléctrico. Cálculo y análisis de estructuras.

Meet Us at ADM Sevilla 2026,  
**STAND M4**

Turning approved chemistry into controlled, repeatable and documented processes demands precision at every stage – the right formulation, verified performance and manufacturer-direct technical expertise where specification, control and confidence come together, supporting the chemistry, the process and the people behind aerospace manufacturing.

Trusted by the world's leading OEMs and MROs – for decades, Turco chemistry has been at the core of aerospace surface treatment, cleaning, deoxidizing, conversion coating, stripping, chemical milling and engine maintenance, backed by precision formulation, on-site technical support and full OEM process documentation support available where applicable.

**2,000+ PRODUCT APPROVALS**  
from worldwide OEMs and MROs

**Airbus & Boeing**  
Approved Manufacturing Plant

**NATO / OTAN**  
NCAGE Code 1508B

**EN/AS 9100 · ISO 9001 · ISO 14001**  
Certified by Bureau Veritas

**REACH**  
Documentation Support

**Barcelona-based Manufacturer**  
Since 1962

### PANEL DISCUSSION | LEGAL AND REGULATORY ASPECTS OF THE INDUSTRY

🕒 10:45–11:15

Moderator

**Silvia de los Santos Trigo**  
Senior Aerospace and Defense  
Consultant  
**CTA (Corporación Tecnológica  
de Andalucía)**  
Andalusian Delegate  
**Ellas Vuelan Alto**

**Silvia Vela Ruiz**  
Of Counsel  
**act legal Spain**

**Miriam Díaz Romero**  
Contract Manager  
**Airbus Defence and Space**

**María Jesús Guerrero  
Lebrón**  
Professor of Commercial Law  
**Universidad Pablo de  
Olavide**

### PANEL DISCUSSION | THE ROLE OF DRONES IN MODERN CONFLICTS

🕒 11:20–12:20

Moderator

**Antidio Viguria  
Jiménez**  
Director, Avionics  
and System  
**CATEC**

**Diego Fernández  
Infante**  
President  
**Arquimea**

**Juan Mahón  
Iglesias**  
Head of BD & Sales  
– Weapons and  
Ammunition  
**Indra**

**Félix Hernánz**  
Defense Advisor  
**Swarming  
Technologies  
and Solutions  
(Grupo Zelenza)**

**Miguel Ángel de  
Frutos**  
Managing Director  
**UAV Navigation-  
Grupo Oesia**

### WORKSHOP | SEVILLE: SPAIN'S SPACE CAPITAL

🕒 14:35 – 15:05

**Silvia de los Santos Trigo**  
Senior Aerospace and Defense Consultant  
**CTA (Corporación Tecnológica de Andalucía)**  
Technical Lead  
**Seville Spanish Space Capital Project**

All sessions will feature simultaneous interpretation

### LINDLAU ALPHA: ON-SITE FIRST RESPONSE SYSTEM FOR VENTILATION AND CARDIAC RESUSCITATION SUPPORT (EOS ADDITIVE MANUFACTURING)

🕒 10:45–11:15

**Victor Paluzie Avila**  
CEO  
RMS / EOS GmbH

**Adolfo Ferrero Lindlau**  
Founder & CEO  
Medical Devicine

### LOAD-PATH-OPTIMIZED FIBER PLACEMENT AND ITS POTENTIAL FOR HIGH-PERFORMANCE COMPOSITE STRUCTURES IN AEROSPACE

🕒 11:20 – 11:50

**Carlos Mira**  
CEO  
HALO Space

### NEAR-SPACE: THE DAWN OF A NEW OPERATIONAL LAYER AND ITS INDUSTRIAL ECOSYSTEM

🕒 11:55 – 12:25

**Martin Schrepfer**  
Senior Sales Engineer  
BIONTEC

### TURNING M&A SCALE INTO TRANSPARENCY, SUSTAINABILITY & PERFORMANCE IN A DIVERSIFIED AEROSPACE AND DEFENSE LANDSCAPE

🕒 14:00– 14:30

**Frank Hofmann**  
Director, Vertical Aerospace & Defense EMEA  
DSV

All sessions will feature simultaneous interpretation    

# WORKSHOP PROGRAM

## WEDNESDAY, MAY 20

### WHY MASKING FAILS – AND HOW TO MAKE IT WORK

🕒 14:35–15:05

**José María Ragués Muñarch**  
Technical Director  
Turco Española

**Lluís Bover**  
R&D Laboratory Technician  
Turco Española

**Rafael Vilaplana Durán-Sindreu**  
Chief Strategy & Business  
Development Officer  
Turco Española

### WHEN PERFORMANCE MUST BE PROVEN: HOW MATERIALS DATA DRIVES RELIABILITY, QUALIFICATION, AND INDUSTRIAL SCALE-UP

🕒 15:10 – 15:40

**Aleksander Koprivc**  
Project Manager Defense – Europe  
ZwickRoell

### ACOUSTIC SENSING TECHNOLOGY FOR AIRBOURNE THREATS

🕒 15:45 – 16:15

**Iain Godwin**  
Regional Technical Manager  
Axiometrix Solutions

### ACCESS TO AEROSPACE, DEFENCE AND SPACE MARKETS IN INDIA – ROADMAP AND CASE STUDIES FROM TELANGANA

🕒 16:20 – 16:50

**Praveen Pa**  
Director for Aerospace and Defence  
Government of Telangana, India

All sessions will feature simultaneous interpretation

## Chemical-Milling Masking Expertise

Meet Us at ADM Sevilla 2026  
**STAND M4**

Aeromasking® is the chemical milling masking brand built by Turco Española S.A. a dedicated range of approved maskants formulated for the precision, consistency and compliance that aerospace chemical-milling operations require, adapted to different substrates, geometries and process conditions, and backed by manufacturer-direct technical support across key stages.

In chemical milling, masking performance directly affects process stability, surface quality and compliance. Aeromasking® products are formulated to perform consistently minimizing variability, reducing rework and supporting audit-ready results.

TECHNICAL WORKSHOP  
AT ADM SEVILLA 2026

### Why Masking Fails and How to Make It Work

Wednesday, 20 May · 2:35 to 3:05 pm  
Sala Marismas · FIBES Palacio de  
Congresos y Exposiciones de Sevilla
